💼 WORK EXPERIENCE IN PROGRAMMING AS FREELANCE

Olivia Chicken Shop

Front End

I did this project for a chicken shop, where the client can find the contact and the different products they sell.

Temporary rental houses

Front End

Page where the user can see the houses for rent that the complex has, details of the services and contact.

E-Commerce: Organic products

Full Stack Developer

Main home page with the brand name, navigation bar with products and a submenu of products divided by categories, each product has information about it.

Pokemon

Full Stack Developer

development of a web app that, based on requests to an API, allows us to see basic information about the registered pokemons and from it, be able to search, filter and create pokemons.
